

Muhammad Haris

Web developer

ABOUT ME

I have 2 years of industry experience in diverse roles, primarily focused on Front-End Development, where I have built and managed both small- and large-scale web applications. My expertise includes **React.js, Next.js, Tailwind CSS, React Bootstrap, Bootstrap 4, CSS3, HTML5**, and I have extensive experience in consuming REST APIs. In addition to development, I possess strong knowledge of social media management and strategy, and I currently serve as the **Head of the Social Media Team**, leading content, engagement, and digital growth initiatives.

I am also proficient in **Microsoft Office tools (PowerPoint, Excel, Word)**, with experience in **IT support, consulting, and troubleshooting**, enabling me to bridge both technical and communication needs effectively.

EDUCATION

University Of Swabi Sep 2017-Sep-2021

BS Computer Science

- I have got a **CGPA of 3.22 out of 4.00**
- Developed a QR Code-based Attendance System using Java as a final year project.
- Automated the attendance process, reducing manual errors and saving time.
- Enhanced data accuracy, security, and efficiency for classroom/organizational use.
